BABY CHICKS

The demand for day old Baby Chicks has become enormous, but we are interested in one of the largest hatcheries in the world and can fill any sized order from 25 to 100,000 chicks and can ship anytime from March 1st to November 1st.

We do not hatch all varieties, only those for which we have most calls for, and the flocks are all pure bred and have been culled for egg production, utility and fancy points. You get as good as can be had when you order Baby Chicks from us. We would suggest that you order early, for the early hatched pullets are the layers next winter, but if you cannot order early, send for chicks any time and your order will be filled promptly and the chicks will please you. Our only **GUARANTEE** is that **YOU MUST BE PLEASED**.

We ship by Parcels Post and we pay postage.

Send money with order and state when you want chicks sent and we will ship the day you say. No waiting for Baby Chicks when you order from us for thousands of chicks are being hatched every day.

We ship only by prepaid Parcels Post with no shipping costs to you.
